## PROFESSIONAL SUMMARY

Aspiring Software Engineer with strong proficiency in C++, data structures, and algorithms. Experienced in full-stack development, working with the MERN stack to create scalable, efficient web applications.

## EDUCATION

### GL Bajaj Group Of Institutions

Bachelor of Computer Science and Engineering *CGPA – 7.88*

Mathura, UP

Aug. 2022 – July 2026

### Gandhi Inter College

Intermediate *Percentage – 76*

Mathura, UP

Feb 2021

## EXPERIENCE

### Infinity Luxury Packaging Solution - MERN

Jan 2025 – Feb 2025

Software Engineering Intern — Freelance Project

Remote

- Built a full-stack web application for a Dubai-based perfume packaging startup.
- Applied software engineering principles to build a responsive UI and enhance admin panel functionality, improving request management by 30%.
- Enabled blog management features, including post creation and deletion with authentication control.

### Golden Eagle Realtor Website - (React.js, Tailwind)

Sept 2024 – Oct 2024

Software Engineer Intern — Freelance

Remote

- Developed and delivered a project using React.js and Tailwind CSS, ensuring a seamless and responsive user interface.
- Implemented a well-structured UI with optimized component architecture for better performance and scalability.
- Ensured a smooth user experience by focusing on design consistency, accessibility, and responsiveness.

## PROJECTS

### FocusMate – Real-Time Collaboration Platform | MERN Stack, Tailwind CSS, Socket.io

April 2025

- Building a distraction-free Pomodoro web app enabling real-time collaboration through rooms with chat, video, and timers.
- Implemented socket-based communication for live messaging, room joining, and synchronized focus sessions.
- Designed modular React components with Tailwind CSS for a seamless, responsive user experience.

### AI-Powered Resume Builder (ATS Friendly) | MERN Stack, Tailwind CSS, Gemini API

March 2025

- Developed a multi-user platform for creating and optimizing ATS-friendly resumes with customizable templates.
- Integrated AI to analyze and refine uploaded resumes based on job descriptions provided by users.
- Built a responsive and user-friendly interface with real-time AI-powered resume suggestions.

## TECHNICAL SKILLS

**Languages:** C++ (Proficient), SQL (mySQL), JavaScript, HTML/CSS

**Core Competencies :** Object-Oriented Programming, Data Structures and Algorithms, Operating Systems, Software Engineering

**Developer Tools:** VS Code, Git, GitHub, Google Colab, Postman API

**Frameworks / Libraries:** React.js, Express.js, Node.js, Tailwind, Bootstrap, Shadcn UI

**Tech Stack:** MERN Stack (MongoDB, Express JS, Node JS, ReactJS)

**Additional Skills :** Team collaboration, problem-solving, attention to detail, strong communication, Collaboration in Agile Environments, Quick Learning of New Technologies, *Time Management in Software Development*

## HONORS / AWARDS

- **Winner - GFG HackFest 2024** : Secured 1st place among 120+ teams by building an innovative algorithm-driven solution to real-world challenges.
- **Top 15 - Finxthon 2023** : Recognized for developing efficient technical solutions at a hackathon organized by Q2 and GL Bajaj Institute of Management and Technology.
